What Our Customers Have To Say!

"I bought a different Emu product from a dealer/vendor at a show since you were not there (I had previously bought your [DermaMagic] product). I was not satisfied. I especially like your [DermaMagic] product to use on my face-have not found a lotion previously that can do this and not break out!" Deborah Paulsrud, Fargo, ND

"When my daughter was 9 years old, she started getting little flat warts on her forehead. They continued to spread down her forehead and side of her face over the next four years. We finally took her to a Dermatologist who said they were caused by a virus and there wasn't much that could be done. He prescribed Retin A, which we tried (it was expensive), but left an inflammation on her face and did not help the warts. At 16 we had bought some (DermaMagic) intensive EmuMagic lotion for me and she started using it too. In about 1 ½ to 2 months she came to me with teary eyes and said **"Mom, ya know what? I just noticed my warts are gone!" I was shocked! But they are gone and have not returned. Thank you!**" Sandy Johanning, Park Rapids, Minnesota

"I used it on my hands to moisturize them, but after a few weeks, my fingers stopped hurting...**It replaces 3 other products.**" JL, Minnesota, Retired RN

"I have psoriasis over 80% of my body. I used DermaMagic™ on my left arm at WE FEST. Three hours later I applied DermaMagic™ again. That afternoon I compared my right arm, which I had moisturized with water to the DermaMagic™ arm. The scales and crustiness were markedly diminished on the DermaMagic™ arm.
